## PROFILE

---

Strategic Technical Lead with over 1.5 years of experience leading cross-functional teams to deliver high-concurrency web applications. Expert in **Next.js, Node.js, and AI integration**, with a proven track record of architecting scalable CRMs, performance-driven HRMs, and AI-powered assessment tools. Experienced in managing the full software development lifecycle (SDLC) for local organizations and international clients in Dubai (UAE), ensuring project delivery from MVP to global scale.

## PROFESSIONAL EXPERIENCE

---

**Octtoppus** 🔗, *Technical Lead*

Sep 2024 – present

### Strategic Leadership & International Client Management

- **Oversee a diverse portfolio of engagements** for local organizations and international clients in Dubai (UAE), managing the full SDLC from discovery and system architecture to global deployment.
- **Orchestrate cross-functional engineering teams** through the project lifecycle: spearheading Phase 1 MVP launches, executing strategic technical "reshaping" for scaling businesses, and managing feature expansion for established entities.
- **Primary Technical Liaison** for international stakeholders, translating complex business requirements into high-performance technical roadmaps and ensuring alignment with organizational KPIs.

### Global Grads CRM (Enterprise Suite – Sister Company)

- **Architected a multi-region CRM ecosystem** to centralize operations for a multinational educational consultancy operating across Pakistan and Bangladesh.
- **Automated Data Pipelines:** Engineered a logic-driven "Lead-to-Enrollment" funnel that captures student data via intelligent consultation forms and triggers automated profile creation with high data integrity.
- **Financial & Compliance Modules:** Developed secure systems for multi-currency commission tracking, student payment installments, and comprehensive internal financial auditing (Income/Expense ledgers).

### AI-Powered Assessment Portal (IELTS, PTE, Duolingo)

- **AI-Driven Grading System:** Developed a Python-based microservice utilizing **DeepSeek AI (via OpenRouter)** to provide human-like evaluation for complex English proficiency modules, including Speaking and Writing.
- **Standardized Testing Architecture:** Designed the portal to simulate real-world examination environments, handling real-time audio/text inputs and delivering instant, standardized performance reports.

### Performance-Based HRM & Operations

- **Incentivized Productivity Logic:** Designed and deployed a custom HRM where real-time salary accrual is mathematically linked to daily KPI completion and Taskboard activity.
- **Operational Automation:** Streamlined company-wide administration by implementing automated performance reporting and granular RBAC (Role-Based Access Control).

### Technical Growth & Strategy

- **Authority Building:** Spearheaded the company’s technical content strategy, authoring professional blogs on Full-Stack best practices and technical SEO to drive organic web traffic.

Webstack Academy, Intern

Aug 2023 – Oct 2023 | Bengaluru, India

- Developed and deployed a Food Delivery Web Application utilizing Next.js, Redux, Node.js and MongoDB to handle seamless user interactions and real-time order updates.
- Built a RESTful API to manage food items, orders and user data efficiently, integrating MongoDB for dynamic database operations.

Rovermint.com, Content Writer

Feb 2021 – Feb 2022 | Saudi Arabia

- Created engaging articles targeting startups, with a focus on web technologies, database management and full-stack development processes.
- Contributed to the site’s growing reputation as a trusted resource for tech insights by producing high-quality content that resonated with startup founders and tech enthusiasts.

Socialitespaces.com, Content Writer

May 2020 – Oct 2021 | Lahore, Pakistan

- Wrote comprehensive articles on technology trends, focusing on practical applications of web development frameworks and databases.
- Delivered valuable insights on AI, autonomous driving and mobile platforms (Android and Apple), increasing audience engagement and site traffic.

SKILLS

Backend

Node.js(Express.js), RESTful API, Python (FastAPI/Flask)

Database Systems

MongoDB, Firebase, Supabase, Realtime  
Firebase Database

AI & Logic

LLM Integration (DeepSeek/OpenRouter),  
Socket.IO(Real-time)

Authentication:

Firebase, Auth0, Clerk, Bcrypt

Leadership

Team Mentoring, Technical SEO, Project  
Scoping

Frontend

React.js, Next.js, Redux, Tailwind CSS,  
TypeScript

EDUCATION

University of Lahore,

Bachelor of Science in Computer Science  
2020 – 2024 | Lahore, Pakistan

- **GPA:** 3.85
- **Relevant Coursework:** Web Development, Database Systems, Data Structures and Algorithms, Software Engineering, Advanced Programming and etc.

Skills Developed:

- **Front-End Development:** Gained hands-on experience with React.js, Tailwind CSS and responsive web design.
- **Back-End Development:** Worked extensively with Node.js, Express and RESTful API design.
- **Database Management:** Proficient in MongoDB, Mongoose and SQL databases.
- **Problem-Solving:** Strengthened problem-solving skills through complex coding assignments and projects.
